- **Deployment Platforms :** Render, Netlify, Vercel

SOFT SKILLS

- Problem Solving
- Communication
- Leadership

PROJECTS

AI tools Directory Web Application

- Built a full-stack web app where students can browse and compare AI tools by category to choose the most suitable option.
- Developed a responsive React + Tailwind frontend and RESTful Node.js/Express + MongoDB backend to manage and serve tool data.

College Conference Website

- Developed a responsive conference website using React (with Vite) and styled it with Tailwind CSS and Bootstrap for a clean and modern UI.
- Implemented pages for committee details, schedule and registration, focusing on mobile-friendly layout and smooth user experience.

Achievements

- Secured 9.1 CGPA in B.Tech (up to 3rd year) – consistently maintaining academic excellence.
- Won 1st place in 3 college-level coding competitions for problem-solving and programming skills.
